Projects

Portfolio Website
A site I made using React which displays all the crucial information about me.

It showcases all my talents as a ReactJS Developer.

Github: Portfolio

SpringStorm (Weather-App)
A minimalist Weather web-app, which gets you the best representation of weather, made using React.

Updates UI/UX of the app based on weather changes.

Github: SpringStorm

Conway's Game of Life (Simulation App)
I made John Conway's Game Of Life simulation in React. It follows the three rules laid down by him to create a truly Zero-Player-Game.

You can play around with different designs and it will take your design as seeds for the simulation.

Github: Game-Of-Life

Education

Bachelor of Science
Veer Narmad South Gujarat University
06/2015 - 05/2018
Major
○ Chemistry

Higher Secondary Certificate
T.P.Bhatia College of Science
